

How to attach two Flysurfer kite bags together

In order to be ready for any wind conditions it may be practical to carry more than just one kite to the spot. Since there is always a lot of stuff to carry we would like to show you how to attach two or more kite bags together. That way you can carry all of your kites conveniently on your back. Find instructions below.

Open the buckles at both sides of each kite bag (4 buckles to be opened per bag).

Place the kite bag on top of each other. It is best to place the smaller kite bag on top of the larger one

Loose the strings of the bag lying on top.

Attach the string of the bag on top with the bag lying below

... have a great kite day!!
